

NORTHWIND RACING STABLES BREEDING CONTRACT

RR # 2 , 1263, FABRE' QUEBEC
CANADA, J0Z 1Z0

(819) 634-2083

You have a mare that you would like to breed!!

We have two sound QUARTER HORSE STALLIONS that you might be interested in!

I'M RAKIN IN THE CASH and MISTER MASTER DASH. These two fellas are of top quality QUARTER HORSE BREEDING; they are sound in mind, body and soul.

On our farm we offer high quality care for your mare, they are handled with the best love and care you could offer your horses. Your mare will have quality feedings- hay, grain, and water. If you have specialty feed such as vitamins and such, you are welcomed to bring it, and it will be given to your mare! And your mare only!

They are stalled in a 10 by 12 ft stall, which are cleaned regular everyday to keep them comfortable. They are also turned out for exercise if you want them to. All our horses here at the farm are turned out individually for exercise. An exercised horse is a happy horse!

Before breeding your mare they are played with and handled to learn what character she has and, to make her comfortable, to see what her needs are so she won't be afraid or upset when she is bred

Stallion Introduction

All mares are introduced to the stallion, while the stallion is stalled, and hand held. There is a half solid wall, and a closed grill in between stud, and mare. The mare is brought to the stallion, while being held, and is introduced to the stallion. When she reacts to the stud, she is only bred when her time is there. She has to be comfortable with the stud.

We do LIVE BREEDING, and we will be introducing AI in the near future!

Our stallions are clean, they have quiet dispositions, and are non aggressive. They are hand held all during the session. They are washed before and after each breeding

Mares

We do mare clean care before and after each breeding. At no charge. Mare is covered through her whole cycle.

Mares must have good character (manners) to be bred to our stud, no kickers, or biters. Because we live breed, and the mare is never restrained while being bred. They must respect humans, and the lead rope.

Your mare must have:

- Registration papers,

- Vaccinations up to date
- Vet checked for STD's, retaining fluid or infection.
- And to see that she ovulates.
- She must be clean

Payment, and Guarantees

- We charge an 9\$ per day stall fee
- clean stalls everyday
- 3 feedings a day
- graining once a day
- 1 hour turn out

Payment on breeding is due on the day of pickup. Option of payment is cash, certified cheque. If by non-certified cheque, you must pay 23 days in advanced. It takes 21 days for a cheque to pass at the bank. Or you can leave me with your horse's papers, and they will be returned to you after 21days.

Very Important

Copies of your horses papers, vaccinations, and vet checks are needed the day of arrival. Horse will not be bred if these are not supplied.

If you want bring some of your mares brushes, I like to brush the mares, and get to know them before they get bred.

**You are guaranteed a live foal !
Once the foal is up nursing, contract is done.**

If your mare dies or aborts, or has twins, and you abort, you will have a rebreeding.

We do not do more than 2 rebreedings.

If the mare does not catch you have a choice of getting her checked by the vet (your cost) or, using another mare, (have to use the same rules for mare)

If you use another mare we do no more than 2 breedings. After the 2 breedings the contract is done.

There will be a charge of mare care fees for each rebreeding.

If the stallion of your choice dies or cannot be available, you will have the option of our other stallion.

We have special rates for 2 or more breedings off the same stud, or if you have more than 3 mares with both studs theirs is a different breeding fee.

We will try our hardest to fill your breeding contract.

Our breeding of outside mares stands at 100% so far, we hope it stays like that.

We will do our best.
